

When you are parent teaching

Do	Example	Don't	Example
<p>Have fun and play with the children</p>		<p>Sit with other parents and chat or keep your head in your phone</p>	
<p>Enable creative ideas. If it is risky find a way to allow the child to explore within safer parameters(make sure no one is going down the slide when they climb up)</p>		<p>Automatically shut down things that may make you uncomfortable</p>	
<p>Let the children be in charge</p>		<p>Insert yourself in and guide things</p>	
<p>Let the children figure things out for themselves</p>		<p>Try to be entertaining and try to fill any boredom</p>
